Our findings from your recent diagnostic scan show that

YOU HAVE A BIG HEART!

Every day, your generosity & thoughtfulness continues to impact our hospitals because Rouge Valley's doctors, nurses and other medical professionals are using the equipment you have helped purchase to care for the thousands of patients who come through our doors.

Your donation is never too small; your act of kindness never unnoticed. We simply can't do it without you, so **THANKYOU for supporting your local community hospital.**
