

# HELP THE STAFF AT AJAX PICKERING HOSPITAL BALANCE THE “HIGH-TECH” WITH THE “HIGH TOUCH”

Many patients arrive at our hospital in an emergency and have absolutely nothing with them. This is often true of the loved ones who accompany them. You might even have been in this situation yourself.

And others are here for an extended period, often months, while they wait to find a long-term home. And if they don't have close family or friends, they probably don't have the comforts of home or even simple personal care items.
