

This morning, I started my day bright & early, and with a great group of people...

At their breakfast meeting, we had the opportunity to tell the [Rotary Club of Ajax](#) all about the new equipment they have helped fund for Ajax Pickering Hospital that is **literally a game changer for Women's Health in Durham Region.**

Ajax Pickering Hospital Foundation Board member & Obstetrician-Gynecologist, Dr. Suha Eltayeb gave a presentation about the new minimally-invasive surgery that has been introduced to the Women's Health program at Ajax Pickering Hospital.

Women who experience uterine fibroids or polyps (that cause heavy periods and/or abnormal bleeding) no longer only have the option of having a hysterectomy.

The new procedure performed by Dr. Eltayeb & her colleagues,

- takes only minutes in an outpatient setting
- has a decreased risk of complications, and
- only takes a day to recover
- plus, future pregnancies are not impacted

vs a hysterectomy that requires

- open-incision surgery in the Operating Room
- an up to 7-day hospital stay, and
- up to a 2-month recovery period.

Thank you Rotarians for looking after all the women in all our lives.
